Life Lessons # 11 to 20

- A request :
- Please read it slowly, carefully and think about it to absorb the meaning.
- If it is worth implementing in real life, then please try to implement it.

Life Lesson # 11

- Some people loose their health to accumulate wealth and then in later years of their life, they loose their entire wealth to regain their health.

Life Lesson # 12

- There are 3 types of health to be looked after :
- (1) Financial Health (i.e. money)
- (2) Physical Health (i.e. body)
- (3) Mental Health (i.e. mind)
- A person who is able to maintain the balance between all 3 of them, has won the battle of life.

Life Lesson # 13

- There are 2 types of people in this world :
- (1) the people who bring happiness wherever they go and
- (2) the people who bring happiness whenever they go.
- Try to be in category 1.

Life Lesson # 14

- Money earned by hard work (i.e. physical or mental) and honesty, brings happiness and satisfaction in life.
- Money earned by dishonesty and by cheating people always bring sorrow and dissatisfaction.
- It is often said that the speed with which money comes in, it goes out with the same speed. Or the way it comes in, the same way it moves out.
- If you want to lead a happy & satisfied life, then follow the path of hard work, sincerity, honesty and yes have patience.

Life Lesson # 15

- Every choice has it's own consequence. Our lives are all about the choices we make and the consequences of those choices.
- Please be ready to bear the consequences. The people who run away from their responsibility to bear the consequences are often not successful.
- Please remember, choice is born out of my (own) intelligence; consequence is born out of HIS (God's) intelligence.

Life Lesson # 16

- Never think of retiring. When you get older, begin to reduce your work. Work less, but do not give up work.
- There is no life without work.

Life Lesson # 17

- There is no golden formula of success in life, but just a set of lessons. Experiences in life are the best teachers.
- An experience may not teach you what to do, but it will definitely teach you what not to do.
- The people you meet, the teachers you get and the values you inherit from your parents, have a great impact in moulding your future.

Life Lesson # 18

- Miracles happen when you have FAITH in something. You may have Faith in God, Faith in Teacher, Faith in your Parents, Faith in Yourself, Faith in Principles or Faith in any other object.
- But you must have FAITH in something. Because faith only works, nothing else.
- For Faith, you need a complete surrender. It should be an unquestionable faith.
- Your ability to trust, for which, there is no validation is faith. To believe what seems unbelievable is faith.

Life Lesson # 19

- Life will not postpone our death. So let us not postpone our life.
- Any good decision and good work should start immediately, instead of postponing.
- In short, do it today as if there is no tomorrow.

Life Lesson # 20

- We give an order to a waiter in the restaurant and expect him to deliver the food very next moment. Lack of patience causes stress. Learn to wait with patience. You have done your work, let him do his own.
- There can be many such instances like waiting at traffic signal, waiting for lift, waiting for exam result and so on. Those people who do not possess patience are often found to be anxious and stressful in their life.
- Please do your part of work and leave the rest for God. If you do not have control over the outcome or result, then why to worry. Waiting with patience will lead you to the path of peaceful progress.

Thank you !

Please share it if you like it.
